(1/95-6/95)

EXPLANATIONS

07/01/01	Explanation for transfer from Family Medicine to Internal medicine: During my Internal Medicine/Cardiovascular rotation in my Family Medicine program in Arkansas, I knew I had a passion for the field of Cardiology. I decided this was a specialty area I wanted to pursue. I realized that I could only make this a reality by completing an Internal Medicine Residency so that I could then track into a Cardiology Fellowship. Therefore, I applied for an Internal Medicine Residency during my first year of Family Practice Residency.
04/97-07/97	GAP explanation: Refer to CV under work experience "Columbia Cedars Hospital House Physician
